INTRODUCTION

-PEC - AIRawasy is a company whose engineering services, software and personnel, have affected the design and development of the products that we use each day. By enabling engineers to simulate the behavior of these products during manufacture or during assembling, **PEC - AIRawasy** has been involved in making your products safer, more durable, and less expensive to develop. Our qualified personnel can help support your own virtual product development process. By providing experienced, motivated engineers and IT staff, we can supplement your own staff.

PEC - AIRawasy: Has made its own reliable, dependable and professional company ensuring every project is completed on time and to our customer's satisfaction. The company has enjoyed rapid growth in the past decade and the success can be measured by the excellence of the projects completed and percentage of repeated orders from their esteemed clients.

With **PEC - AIRawasy:**

- Customers have quality and reliability;
- Innovative and able to adapt to different needs;
- High standards of transparency in their operations and integrity;
- Pro-actively committed to provide superior level of service and expertise on each project, by identifying customer have needs and by applying proven knowledge and skills guaranteeing a successful project.

Our Vision

Our vision has been clear and consistent from day one. **PEC - AIRawasy** built its reputation on quality. In pursuit of that goal we have worked with discipline and dedication to continually raise the bar on our quality standards. Today we have reached the highest level of professionalism in the construction industry and have been rewarded by our clients' trust and ongoing satisfaction.

Our ACTIVITIES

As A group we are working in many fields of engineering application starting with civil works ending with water technologies.

- Civil Engineering.

TURNKEY PROJECTS

This is a growing aspect of **AIRawasy-PEC** service. It offers our clients dependability, control and convenience. (In fact, some people think this is what the **AIRawasy - PEC** name stands for.) It's not hard to imagine the benefits which accrue from a comprehensive turnkey relationship with **AIRawasy - PEC**.

When you put your trust in us, we assume all the worry, and all the responsibility for bringing your vision to life. **AIRawasy - PEC** becomes your single source, your one dependable partner from planning, design and engineering, to the smallest details of interior design.

In construction our approach is simple. We constantly upgrade the skills of our people to assure that their expertise is first class. We apply cutting edge building technologies and consistently refine them to maximize efficiency in every project. Our clients reap the benefits in beautiful buildings built on time and on budget.

Visitors to our construction sites are pleasantly surprised. Instead of the mayhem at ordinary job sites, here there is a prevailing air of organized workflow, cleanliness and order. It's just one visible manifestation of our disciplined attitude to the construction process. We further this approach by assuring that our toolbox of construction resources always contains the latest and best in technology and expertise. And we constantly hone our edge by perfecting our competitive, cost-effective construction processes.

The resulting buildings mirror that attitude — They are testaments to quality, in steel, concrete and glass.
